

Petroleum Technology Transfer Council

presents

June 23-27, 2014

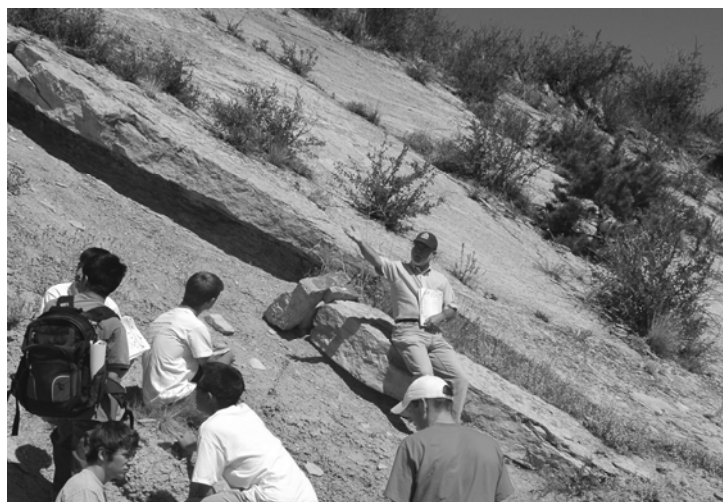

Futures in Energy

in association with the
Colorado School of Mines

Futures in Energy is an oil and gas industry outreach program that provides talented high school juniors and seniors with scholarships to an oil and gas technology training program.

The program will be held June 23-27, 2014, on-campus at the Colorado School of Mines in Golden, Colorado. This five-day interactive training program will focus on oil and gas exploration, technology, and will include field trips to visit local geology and oil field operations.

There will be an opportunity to get a taste of college life with FREE room and board available on campus in a student dorm during the duration of the program.
